

Internship Program Admissions

Date Program Tables are updated: 05/22/2020

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:

Applicants should have a demonstrated interest in working with children as reflected by their practicum experiences. Although we do not require a specific type of practicum experience, those that are valued include experience in providing clinical services to children with diagnosable conditions in an outpatient, inpatient, community mental health center or a school setting for children with behavioral disturbances. Additionally, testing experience with children, especially using some form of full-battery is highly desired. We rank applicants according to experience and demonstrated interests.

Does the program require that applicants have received a minimum number of hours of the following at time of application? If Yes, indicate how many:

Total Direct Contact Intervention Hours	Yes X	No	400
Total Direct Contact Assessment Hours	Yes X	No	50

Describe any other required minimum criteria used to screen applicants:

To be an eligible applicant you must have a Masters degree in clinical psychology or equivalent and be licensable in the state of Kansas at the Masters level. It is a requirement that applicants be in good standing from an APA accredited program. Prospective applicants can review these requirements at <http://www.ksbsrb.org/>. A completed application includes the APPI (<http://www.appic.org>), one psychological test report, three letters of reference from supervisors who know your clinical work well, an official copy of your graduate transcripts and a letter from your training director attesting to your readiness for internship (the APPI form documentation is sufficient). We encourage an on-site interview, which is usually scheduled for a Friday in January, however interviews may be conducted via phone or Skype. All applicants should have completed their comprehensive examinations as required by their doctoral program. Every individual offered employment shall

Financial and Other Benefit Support for Upcoming Training Year*
